You are at the right place to download Obsessed 2009 1080p BluRay DTS x264 HiDl Torrent. Please click the download button to start download Obsessed 2009 1080p BluRay DTS x264 HiDl Torrent right away. Jul 25, 2012 - Quicktime . Thanks A: The following regular expression should be able to give you the result you want. It should capture the following: Answered in the comments by @AnkitSharma, I don't have full context but the . will match newlines, so you may want to use this instead: `^\s*(?[\w_]{1,}\s*)?(?[\w_]{4})?(?[\a-zA-Z0-9-]{1,}|(?\torrent?))r?r?*` Note the additional `\r?` at the end to handle the case of the observed newline at the end of the output. I don't know how to account for it in the regex, so this should work for the case you've seen. You should be able to use this regex in any programming language which supports regular expressions, such as Perl, Python, or PHP. Here is the corresponding code: `#!/usr/bin/env python import re input = " Streaming Service Music Devices 1. webuy.com.au/ f03f51c5c2d39a51a45d0340f5099069.m3u8 Download 2. aetherik.es/video/teg-sundance-app/latest Download 3. r-a-l-c-o-n-s.no-ip.biz/ Download 4. r-a-l-c-o-n-s.no-ip.biz/ Playback 5. r-a-l-c-o-n-s.no-ip.biz/ Playlist "" split("\r") pattern = re.compile(r"(?[\w_]{ 2d92ce491b`
