. A: "Virtual Fem Master Collection torrent" is a 10 year old (2005) torrent for the film "Virtual Fem (1999)" by the Hungarian director István Szabó (the title refers to the major silicone sex doll in the film). It's highly unlikely that it has ever been updated to include any other titles. There is no way to get the entire "virtualfem master collection" without either paying a lot for them all individually, or to do the torrenting yourself. Might be easier to just buy the DVD or Blu-Ray copies from Amazon?

Novel peroxidase-based chemiluminescent immunoassay for the rapid detection of influenza A and B viruses in clinical samples. We describe the development of a rapid and sensitive chemiluminescent immunoassay (CLIA) for the detection of influenza A and B viruses in clinical samples. The assay was based on monoclonal antibodies (MAbs) specific for the H1N1, H2N2 and

H3N2 subtypes of influenza A viruses (IAV) and the B/Harbin/7/95 (BH) and B/Jiangsu/10/2003 (J10) strains of influenza B virus (IBV). The reaction components included the peroxidase (POD) substrates 3,3'-diaminobenzidine and luminol, and peroxidase-labeled anti-influenza virus MAb as the detection reagent. The CLIA was able to detect as low as 100 plaque forming units of IAV and 10(3) hemagglutinating units (HAU) of IBV in 10 min. The detection limit of the assay was also evaluated using IAV and IBV cell culture supernatants, which were highly positive for the IAV and IBV antigens. This CLIA is thus a promising tool for rapid screening of IAV and IBV in clinical samples, and for early identification of novel strains of IAV and IBV.
