Tinder dating Just a simple app that helps women find men with the same interests and preferences as them. That's all I have to say. I find it baffling that people are so down on Tinder, but then again there is a reason. My experience with Tinder has been a

disappointing one. I find that the profiles are usually very general with no real details. To me, the only difference between online dating and meeting someone from your nearby community is the date. I think online dating has changed from meeting someone online to being more of a location based thing. I've met a guy before I've even met him and we both had similar interests. So here is the first of two articles on Tinder. The first part covers the different things you need to consider when you decide to go on Tinder and the second part is where I dive into some of my Tinder experiences. Firstly, I think that Tinder is a great app. I've met some really cool people through it and even ended up going on
