

Welcome to the much requested Twixtor Sync tutorial! The technique itself is very simple, but the concept is... You download this tutorial from <http://twixtor.com>, open it and... that's it! (at least as of this writing) Once you've downloaded the file, open it with the program you were using the last time you opened the tutorial. For example, open your presentation program if you were doing a lesson in PowerPoint. Then, copy the text from one of the tutorial pages and paste it into your presentation. Once you've done that, save the file and the tutorial will close itself!
