Plus: Telenor giant Vodafone Group of New Zealand is to sell its 49 percent stake in New Zealand's second largest broadband provider, 2degrees. Vodafone will sell the stake, including its share in 2degrees' Internet service provider 2degrees Media, to 2degrees' management and will provide for the sale of its other shares in the provider. The company said it was seeking expressions of interest from potential buyers before setting a deadline of 28 March for expressions of interest. 2degrees has about half of the New Zealand market for residential broadband and 90 percent of the market for small businesses. Vodafone CEO Mike Dunphy said in a statement the sale of the stake will give the company greater financial flexibility and enhance Vodafone's focus on its remaining business. 2degrees Media has other shareholders, including UTV Digital, which owns a 19.5 percent stake, and a partnership between Microsoft, Intel and New Zealand carrier 2degrees. "We remain committed to growing our broadband businesses, which are complementary to our core telecommunications operations. We are therefore pleased to have reached a good deal with 2degrees, which will enable us to unlock further value and make significant progress in building a more competitive broadband offering for New Zealand. ♦
