A cracker solving the game! A simple password cracking game The app is an easy-to-use password cracker that can deal with everyday passwords found on mobile phones. It is a puzzle game that combines the fun of a coin-operated arcade machine, with the game of cracking encrypted passwords. The primary goal of the game is to solve passwords entered by the player and put them into a pool of possible passwords. Along with the main pool, a list of the most commonly used passwords is kept. When the player solves a password, the true password is printed out and added to the list, thus it can be used as a custom master password. Easy to use and intuitive to learn The game is easy to use, but initially it might seem a bit confusing because there is no tutorial and it displays a blank keyboard. To get started, you can simply select a pool of passwords and begin to solve. The game will prompt you to type a new password, should you make one wrong guess. After each successful guess, a number of hints are provided to point out the key. This can be helpful if you are stuck. It is also possible to skip puzzles in favor of hints or the "hard" mode, which means that the user will only receive hints if the password is not solved in less than 3 attempts. Progress made is marked by a number displayed on the screen. After all available passwords are used up, the game stops and prompts the user to start over. Simple to use and enjoyable The game is simple to play. The main challenge is to find the right password for each puzzle. The game provides three hints that gradually reveal the password, starting with a key hint, followed by a symbol hint, and ending with a number hint. Although the game is easy to learn, it is fairly challenging and some people might not be able to finish it in a day. Fireworks is a firework application that offers a variety of firework designs that can be downloaded and viewed on various types of phones. It is one of the first apps that can be downloaded from the Google Play Store, as the official release did not make it out until late 2011. This makes it one of the latest Android apps to be available, but it is still widely used. Is the best app to view fireworks As the name implies, Fireworks is a fireworks application.
